Hendrysburg, O. - (UP) - Sarah Thompson worked on her quilt in the seclusion of her little home on Practical Club in the hillside near here for 65 years. Now the quilt is finished and tucked away in a large box which once was her hope chest.

Sarah began piecing together the quilt for her hope chest as a girl. That was just after the close of the Civil War. But something happened and her hope neevr was fulfilled, so the afternoon on the very interesting the quilt lay untouched for many topic, "Ford and His Work."

Then, some 50 years ago, she began jokes. work on the quilt again. She carefully fitted the squares together, according to the pattern she had designed. The work was slow, but it was Sarah's life work for she never left her little home except to buy an occasional spool of thread or food for her canaries. The grocer and the coal man were

#### WHY BRICK PAVEMENT?

The Illinois state highway department is reported to be opening bids today for a contract to repave the Lincoln Highway from DeKalb west to the Ogle County line with brick, twenty feet wide.

The Telegraph cannot just see why this should be done. What DeKalb, Dixon, Rochelle, Sterling and other cities along this route want is a forty-foot roadway.

It is reported that the new brick highway, to be laid over a cement slab which seemed to be giving fine service, will cost the state approximately \$37,000 a mile.

Why a brick highway, anyway? Why build a new one over one that is still serviceable? Who is interested in the brick business?

#### WHY WE GO TO COLLEGE.

A college or a university is generally believed to be a sort of warehouse where innumerable facts are stored, to be sorted out and delivered, in proper quantities, to aspiring students who come in search of knowledge. But Dr. Ernest M. Hopkins of Dartmouth College, told middle-western alumni of Dartmouth the other day that this conception of a college

Indeed, he asserted, the prime function of a college is not at all to give knowledge to its students. It does its part if it merely imparts to them an inquiring and understanding habit

"Nothing is more useless than a fact by itself," says Dr. Hopkins. "The only thing a liberal arts college can do is to offer the atmosphere and environment in which education can be got.

It's a woman's big arena soon was reached. "This parents, that the colleges will somehow contrive to stuff their shawl, I guess." The Travel Man replied, "You're right. In it I'd surely ed. As Dr. Hopkins says, it aims not so much to teach the students to do something as to teach them to be something.

But it probably will take us a long time to realize this. We demand tangible results when we put our money on the line. When we send our son off to college we fondly expect that he will emerge, after four years of it, ready to become a captain of industry or a highly-salaried professional man. It is hard for us to understand that a broadened horizon can be, in itself, worth the expense of a college education.

## THOSE ANTIQUATED LAWS.

There is no hitching rail in front of the Back Bay Boston hotel to which Reuben Curtis drove the other day. Nevertheless, as soon as his name was on the register, Curtis nodded toward the window through which a bay mare hitched to an old-time buggy could be seen. Casually he said to the clerk, "I guess you'd better take care of Bess out there."

There was an argument. The smooth-running routine of the hotel was completely upset, but eventually Curtis won his point. A visit to police headquarters brought to light an ancient law requiring "inn-holders" to supply stable room for their guests' horses and cattle. Presently Bess was installed in a near-by garage and all was peaceful.

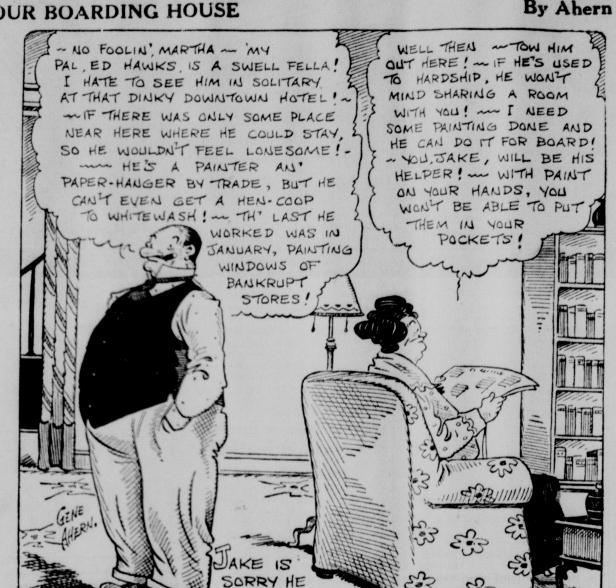

There is more to the incident than the smile it prompts. Here is another example of the useless, antiquated ordinances and statutes with which city and state governments throughout the country are crowded. Having outlived their day these rulings emerge from time to time to hale or defeat val uable modern projects. The case of Bess, the bay mare, was quickly settled and unimportant. Without doubt the Boston hotel could have supplied storage space for motor vehicles but in spite of investment for this service it has the legal obligation to maintain stables.

Far more serious injustices worked by laws which were originally sound arise constantly. Legislators, now in session in so many states, would do well to think of removing this clutter instead of adding to already over-bulky statue books.

You start having trouble such as Indigestion, Heart Burn, Sour Stomach, Acidosis, Gastritis, Intestinal Pains or some simi lar symptoms. Right then is the time to start taking ULCICUR. It will probably be easy to effect a cure at that early stage. But even if you have a long standing

case you can still depend upon ULCI-CUR for you are probably in nothing like the bad condition that Mr. J. W Hobbie of Oak Park, Ill., was in. Just read part of Mr. Hobbie's letter: "I have had ulcers for 28 years. Had three major operations and in ever case the ulcers returned, even unde a strict diet. Felt my case to be in curable. Grasping at a straw I was willing to give your medicine a trial. Was amazed at the results. ULCI-CUR cured my ulcers and probably saved my life. Have sent you at least 30 ulcer sufferers who have taken your medicine and have been cured.' (Signed) J. W. HOBBIE,

726 N. Ridgeland Ave., Oak Park, Ill. ULCICUR is recognized as the treatment most in demand for stomach ailments, so nearly every drug store car ries it in stock continually, making it easy for you to try a bottle. If for any reason your nearest druggist happens to be without it, ask him to get a

# The right way to use the new HUMIDOR PACK

Do not tear Cellophane. Look for the convenient flap at the top

Simply lift this flap and you will break the specially devised air-tight seal

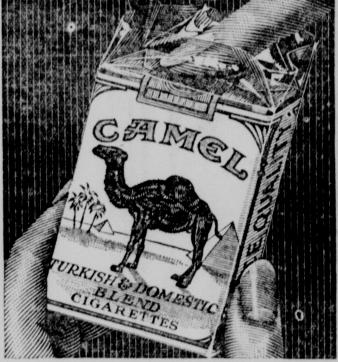

Hold package as shown and with your thumbs

push it part way out of Humidor Pack

to avoid tearing tin foil, slip first finger of each hand under Revenue stamp and break it

Help yourself to a fresh cigarette, then slide package back into its Humidor Pack

Close package. It guards Camels from dust and germs and provides sanitary protection

THE moment you open the new Camel Humidor ■ Pack you begin to note the advantages of this new, scientific and sanitary method of wrapping Camel cigarettes.

At once you are greeted with the delightful aroma that comes from choicest Turkish and mellowest Domestic tobaccos in prime condition.

Your sense of touch also detects the freshness of Camels, for unlike moisture-robbed cigarettes Camels are pliable to the fingers.

But the real difference comes when you light a Camel and inhale its cool, fragrant smoke.

© 1931. R. J. Revnolds Tobacco Company

Cigarettes brought to you so perfectly conditioned deserve to be kept that way in your pocket.

The simplest way to insure this is to open the Camel Humidor Pack as shown above.

That will keep intact the mildness and freshness that is making the whole country say: "Now I'd walk two miles for a Camel because they're twice as good."

If you haven't tried Camels in the new Humidor Pack, switch over for just one day.

Then go back tomorrow if you can.
